Independent Auditor's Report

Board of Directors
Valley Sanitation District
Arapahoe County and City and
County of Denver, Colorado

We have audited the accompanying financial statements of Valley Sanitation District (District) as of and for the years ended December 31, 2018 and 2017 and the related notes to the financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Valley Sanitation District, as of December 31, 2018 and 2017, and the

changes in its financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages III through VI be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's financial statements as a whole. The supplemental information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements.

The supplemental information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The other information listed in the table of contents has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

**VALLEY SANITATION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEARS ENDED DECEMBER 31, 2018 AND 2017**

Our discussion and analysis of Valley Sanitation District's (District) financial performance provides an overview of the District's financial activities for the fiscal years ended December 31, 2018 and 2017. Please read it in conjunction with the District's basic financial statements which begin on page 1.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. Required statements for proprietary funds are: 1) Statement of Net Position, 2) Statement of Revenues, Expenses and Changes in Fund Net Position, and 3) Statement of Cash Flows. The Statement of Net Position and the Statement of Revenues, Expenses and Changes in Fund Net Position are prepared using the economic resource measurement focus and the accrual basis of accounting.

The *Statement of Net Position* presents information on all of the District's assets plus deferred outflows of resources and liabilities plus deferred inflows of resources, with the difference reported as net position. This statement provides useful information regarding the financial position of the District. Over time, increases and decreases in net position can serve as a useful indicator of whether the financial position of the District is improving or deteriorating. Nonfinancial factors should also be considered to assess the overall financial position of the District.

The *Statement of Revenues, Expenses and Changes in Fund Net Position* reports the changes that have occurred during the year to the District's net position. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Revenues and expenses are reported for some items that will only result in cash flows in the subsequent years.

The *Statement of Cash Flows*, as its name implies, is concerned solely with flows of cash and cash equivalents. Only transactions that affect the District's cash position are reflected in this statement. Transactions are segregated into four sections on the statement: 1) cash flows from operating activities, 2) cash flows from capital financing activities, 3) cash flows from noncapital financing activities, and 4) cash flows from investing activities.

FINANCIAL SUMMARY AND ANALYSIS

Net Position - 2018

As noted earlier, net position may serve as a useful indicator of the District's financial position. As noted in the table below, the District's assets exceed liabilities plus deferred inflows of resources in 2018 by \$854,340. This amount increased from 2017 to 2018 by \$68,471 or 8.7%. Current assets decreased by 22.6% or \$192,248 from 2017 to 2018. Cash and cash equivalents and investments decreased by \$203,502, primarily due to the initial cash funding of the sewer outfall interceptor relocation project (sewer outfall project). This funding explains the increase in capital assets by \$297,059 or 245.8% from 2017 to 2018. Property taxes receivable increased by \$18,400 due to the increase in assessed valuation and the addition of a debt mill levy of .122 for anticipated debt payments related to a voter approved loan in the amount of

**VALLEY SANITATION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEARS ENDED DECEMBER 31, 2018 AND 2017**

\$2,700,000 to finance the sewer outfall project. Execution of this loan has been delayed awaiting bids for construction costs. If costs exceed the loan amount, the District may be forced to abandon the loan funding and seek other means to complete the project. If this occurs the property taxes received from the debt mill levy will be refunded. Assessed valuations increased 7.7%, but the District's 2.493 operating mill levy was offset by a temporary mill levy reduction of .496 mills to comply with TABOR. Current liabilities increased \$17,940, or 63.0%, from 2017 to 2018. This increase is due to costs related to the sewer outfall project incurred during December 2018.

Net Position - 2017

As noted in the table below, the District's assets exceed liabilities plus deferred inflows of resources in 2017 by \$785,869. This amount increased from 2016 to 2017 by \$70,415 or 9.8%. Current assets decreased by 4% or \$35,699 from 2016 to 2017. Cash and cash equivalents and investments decreased by \$57,696, primarily due to spending on sewer outfall interceptor line relocation project. Accounts receivable increased by \$16,761 or 20.9%. The accounts receivable is comprised primarily of the amount due from the City of Englewood which collects the District's surcharge on behalf of the District and remits amounts periodically. Additionally, property taxes receivable increased by \$5,000 due to an increase in the District's assessed valuation and a slightly lower mill levy for the property taxes levied for collection in 2018. The District's 2.493 mill levy was offset by a temporary mill levy reduction of .439 mills by the District to comply with the statutory property tax revenue limitation (5.5% limit) of C.R.S. 29-1-301 and TABOR. Current liabilities increased \$3,926, or 16.0%, from 2016 to 2017. This increase is due to an increase in accounts payable due to more expenses incurred in December 2017 than December 2016 and the related timing of the payment of those expenses.

**VALLEY SANITATION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEARS ENDED DECEMBER 31, 2018 AND 2017**

Changes in Net Position - 2018

As noted in the table below, the District's net position increased by \$68,471. Total revenues decreased by \$16,279 from 2017 to 2018. The largest portion of this decrease was in capital contributions where the District received \$19,000 in system development fees in 2017 while none were received during 2018. Overall expenses decreased by \$14,335 or 7.4% from 2017 to 2018. As discussed below, significant administrative costs were incurred during 2017 holding an election and planning for the outfall sewer project. Administrative costs decreased by \$25,156 from 2017 to 2018. This decrease was offset by the increase in sewer operations of \$10,768. More television inspections were planned and scheduled to be completed by Platte Canyon Water and Sanitation District during 2018 compared to 2017 (see Note 7).

Changes in Net Position - 2017

As noted in the table below, the District's net position increased by \$70,415. Total revenues decreased by \$5,188 from 2016 to 2017. A large decrease of \$26,000 in capital contributions was partially offset by increases in charges for services, property and specific ownership taxes and investment earnings. Overall expenses increased by \$18,857 or 10.8% from 2016 to 2017. The largest increase in expenses was in administration, where the District incurred costs notifying its constituents about the need for the sewer outfall project and holding an election to obtain voter approval for financing the project. Sewer operations decreased as costs related to the sewer outfall project in 2016 were determined to be non-capitalizable, where most of the costs incurred in 2017 were determined to be capitalizable.

**VALLEY SANITATION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEARS ENDED DECEMBER 31, 2018 AND 2017**

BUDGETARY HIGHLIGHTS

During 2018 the District's budget was not amended. Total revenue was budgeted at \$2,941,907 for 2018, and actual revenue was \$247,438, which resulted in a negative budget variance of \$2,694,469. During 2017, the District received voter approval to issue debt up to \$2,700,000 for the purpose of financing the costs of relocation and improving the District interceptor sewer line. As mentioned above, the loan was not executed during 2018, therefore there were no loan proceeds. The total actual expenditures were \$476,026 or \$1,639,556 under budget due to the sewer outfall project not progressing as planned. The District did cash fund administrative and engineering costs related to the outfall sewer project amounting to \$297,059, but bids for construction of the project were not completed during 2018. The construction of the project may continue as planned during 2019 but is dependent on the cost results of the construction bids. Details of the 2018 budget to actual results can be found on page 13 of this report.

CAPITAL ASSET AND DEBT ADMINISTRATION

All of the District's capital assets were fully depreciated at December 31, 2018 and 2017, with the exception of the construction in progress of the sewer outfall project of \$417,928 that was started in 2015 for \$5,829, had no additions in 2016, increased by \$115,040 in 2017 and by \$297,059 in 2018. The sewer outfall project is still in process at December 31, 2018. Additional information on the District's capital assets can be found in Note 4 of this report.

Authorized but unissued debt amounted to \$2,700,000 at December 31, 2018 and 2017.

ECONOMIC FACTORS NEXT YEAR'S BUDGET AND RATES

Total revenue in 2019 is projected to be \$3,008,766, including \$2,700,000 of loan proceeds. The other sources of revenue are anticipated as follows: property tax revenue of \$175,196, specific ownership tax revenue of \$13,140, investment earnings of \$8,490, sewer service surcharge revenue of \$70,932, capital project cost sharing revenue of \$34,900 and other revenue of \$6,108. Total expenditures for 2019 are budgeted at \$3,065,735 with \$207,210 for operations, \$2,816,215 for capital outlay and \$42,310 for contingencies and emergency reserves. Budgeted expenditures are expected to exceed revenues resulting in a decrease of funds available of \$56,969.

REQUESTS FOR INFORMATION

The financial report is designed to provide a general overview of Valley Sanitation District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Financial Administrator, Valley Sanitation District, 8739 W. Coal Mine Ave., Littleton, CO 80123.

**VALLEY SANITATION DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018 AND 2017**

NOTE 1 – DEFINITION OF REPORTING ENTITY

Valley Sanitation District (District), was created as a quasi-municipal corporation and political subdivision of the State of Colorado, is governed pursuant to provisions of the Colorado Special District Act. The District's service area is located in Arapahoe County and City and County of Denver, Colorado. The District was established to provide sewer service to property within its service area primarily through intergovernmental agreements. The District is governed by an elected Board of Directors.

The District follows the Governmental Accounting Standards Board (GASB) accounting pronouncements which provide guidance for determining which governmental activities, organizations and functions should be included within the financial reporting entity. GASB pronouncements set forth the financial accountability of a governmental organization's elected governing body as the basic criterion for including a possible component governmental organization in a primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization's governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens and fiscal dependency.

The District is not financially accountable for any other organization, nor is the District a component unit of any other primary governmental entity.

The District has authorized but unissued debt in the amount of \$2,700,000.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the District conform to generally accepted accounting principles as applicable to governmental units accounted for as a proprietary enterprise fund. The enterprise fund is used since the District's powers are related to those operated similar to a private utility system where net income and capital maintenance are appropriate determinations of accountability.

The District has elected to follow Governmental Accounting Standards Board pronouncements.

Operating Revenues and Expenses

The District distinguishes *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with an enterprise fund's principal ongoing operations. Operating revenues consist of charges to customers for service provided. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses or capital contributions.

**VALLEY SANITATION DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018 AND 2017**

Restricted Resources

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Budgets

In accordance with the Local Government Budget Law of Colorado, the District's Board of Directors holds public hearings in the fall each year to approve the budget and appropriate the funds for the ensuing year. The appropriation is at the total fund expenditures level and lapses at year end. The District's Board of Directors can modify the budget by line item within the total appropriation without notification. The appropriation can only be modified upon completion of notification and publication requirements.

Property Taxes

Property taxes are levied by the District's Board of Directors. The levy is based on assessed valuations determined by the County Assessor generally as of January 1 of each year. The levy is normally set by December 15 by certification to the County Commissioners to put the tax lien on the individual properties as of January 1 of the following year. The County Treasurer collects the determined taxes during the ensuing calendar year. The taxes are payable by April 30 or if in equal installments, at the taxpayer's election, in February and June. Delinquent taxpayers are notified in August and generally sales of the tax liens on delinquent properties are held in November or December. The County Treasurer remits the taxes collected monthly to the District.

Property taxes, net of estimated uncollectible taxes, are considered deferred inflows of resources and are recorded initially as deferred revenue in the year they are levied and measurable. The deferred property tax revenues are recorded as revenue in the year they are available or collected.

Cash Equivalents

For purposes of the statement of cash flows, the District considers cash deposits and highly liquid investments (including restricted assets) with a maturity of three months or less when purchased, to be cash equivalents.

Prepaid Expenses

Certain payments to vendors for goods or services reflect costs which are applicable to future accounting periods are recorded as prepaid items in the financial statements.

Capital Assets

Capital assets are recorded at cost except for those assets which have been contributed which are stated at estimated fair value at the date of contribution. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives

**VALLEY SANITATION DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018 AND 2017**

of the related capital assets, as applicable. Depreciation expense has been computed using the straight-line method over the estimated economic useful lives:

Wastewater system	50 years
Equipment	5 years

Estimates

Management uses estimates and assumptions in preparing financial statements in accordance with generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could vary from the estimates that were assumed in preparing the financial statements.

System Development Fees and Contributed Lines

System development fees are recorded as capital contributions when received. Lines contributed to the District are recorded as capital contributions and additions to the systems at estimated fair market value when received.

NOTE 3 - CASH AND INVESTMENTS

Cash and investments as of December 31, 2018 and 2017 were comprised of the following:

	<u>2018</u>	<u>2017</u>
Deposits with financial institutions	\$ 8,536	\$ 67,638
Investments	<u>379,277</u>	<u>523,677</u>
	<u>\$ 387,813</u>	<u>\$ 591,315</u>

The cash and investments are classified in the accompanying financial statements as of December 31, 2018 and 2017 as follows:

	<u>2018</u>	<u>2017</u>
Cash and cash equivalents	\$ 387,813	\$ 530,905
Investments	-	60,410
	<u>\$ 387,813</u>	<u>\$ 591,315</u>

Cash Deposits

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool for all the uninsured public deposits as a group is to be maintained by another institution or held in trust. The market value of the collateral must be at least equal to 102% of the aggregate uninsured deposits.

**VALLEY SANITATION DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018 AND 2017**

The State Commissioners for banks and financial services are required by Statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

At December 31, 2018, the District had cash deposits, including certificates of deposit, with a bank balance of \$11,336 and a carrying balance of \$8,536. At December 31, 2017, the District had cash deposits, including certificates of deposit, with a bank balance of \$67,638 and a carrying balance of \$67,638.

Investments

The District has adopted a formal investment policy, specifying the principal investment objectives of the District and standards of prudence to be used for managing the District's assets. The policy stipulates that all investments shall conform to State law.

Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local governments may invest which include:

- . Obligations of the United States and certain U.S. government agency securities and the World Bank
- . General obligation and revenue bonds of U.S. local government entities
- . Bankers' acceptances of certain banks
- . Commercial paper
- . Certain reverse repurchase agreements
- . Certain securities lending agreements
- . Certain corporate bonds
- . Written repurchase agreements collateralized by certain authorized securities
- . Certain money market funds
- . Guaranteed investment contracts
- . Local government investment pools

The District has invested in a local government invest pool, the Colorado Local Government Liquid Asset Trust (COLOTRUST), which is rated AAAM by Standard & Poor's.

Interest Rate Risk

Colorado Revised Statutes limit investment maturities to three to five years or less unless formally approved by the Board of Directors. Such actions are generally associated with a debt service reserve or sinking fund requirement.

As of December 31, 2018 and 2017, the District had the following investments:

<u>Investment</u>	<u>Maturity</u>	<u>Investments at NAV</u>	
		<u>2018</u>	<u>2017</u>
Colorado Local Government Liquid Asset Trust (COLOTRUST)	Weighted average under 60 days	<u>379,277</u>	<u>\$523,677</u>

**VALLEY SANITATION DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018 AND 2017**

COLOTRUST

At December 31, 2018 and 2017, the District has invested in the Colorado Local Government Liquid Asset Trust (the Trust), an investment vehicle established for local government entities in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces all State statutes governing the Trust. The Trust operates similarly to a money market fund. The Trust offers shares in two portfolios, COLOTRUST PRIME and COLOTRUST PLUS+. Both portfolios may invest in U.S. Treasury securities, repurchase agreements collateralized by U.S. Treasury securities, certain obligations of U.S. government agencies and instrumentalities, and repurchase agreements collateralized with certain U.S. government agencies or instrumentalities. COLOTRUST PLUS+ may also invest in the highest rated commercial paper.

Investment Valuation

Certain investments are measured at fair value on a recurring basis are categorized within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The District's investments are not required to be categorized within the fair value hierarchy. These investments are measured at amortized cost or in certain circumstances the value is calculated using the net asset value (NAV) per share, or its equivalent of the investment. These investments include 2a7-like external investment pools and money market investments. The District held investments in COLOTRUST at yearend for which the investment valuations were determined as follows.

COLOTRUST determines the NAV of the shares of each portfolio as of the close of business of each day. The NAV per share of each portfolio is computed by dividing the total value of the securities and other assets of the portfolios, less any liabilities, by the total outstanding shares of the portfolios. Liabilities, which include all expenses and fees of COLOTRUST, are accrued daily. The NAV is calculated at fair value using various inputs in determine value in accordance with FASB guidance. It is the goal of the Trust to maintain a NAV of \$1.00 per share, however changes in interest rates may affect the fair value of the securities held by COLOTRUST and there can be no assurance that the NAV will not vary from \$1.00 per share.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018 AND 2017**

NOTE 5 - NET POSITION

The District has net position consisting of two components – restricted and unrestricted.

Restricted net position includes amounts that are restricted for use either externally imposed by creditors, grantors, contributors, or laws and regulations of other governments or imposed through constitutional provisions or enabling legislation. As of December 31, 2018 and 2017, the District's restricted net position was \$5,350 and \$5,200 respectively, as required by Article X, Section 20 of the Constitution of the State of Colorado (See Note 8).

NOTE 6- RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, thefts of, damage to, or destruction of assets; errors or omissions; injuries to employees, or acts of God.

The District is a member of the Colorado Special Districts Property and Liability Pool (Pool). The Pool is an organization created by intergovernmental agreement to provide property, liability, public officials' liability, boiler and machinery and workers compensation coverage to its members. Settled claims have not exceeded this coverage in any of the past three fiscal years.

The District pays annual premiums to the Pool for liability, property, public officials' liability coverage and workers compensation. In the event aggregated losses incurred by the Pool exceed amounts recoverable from reinsurance contracts and funds accumulated by the Pool, the Pool may require additional contributions from the Pool members. Any excess funds which the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula.

NOTE 7 – INTERGOVERNMENTAL AGREEMENTS

City of Englewood

The District has a service agreement with the City of Englewood (City) whereby the City provides sewage treatment service to the District's service area and charges the users directly. The District is to provide and maintain its own sewer lines and connection to the City's facilities.

Platte Canyon Water and Sanitation District

The District has an agreement with Platte Canyon Water and Sanitation District (Platte Canyon) whereby Platte Canyon will provide administrative and sewer maintenance services for the District.

Columbine Water and Sanitation District

On February 9, 1987 the District entered into a Maintenance Cost Allocation Agreement (agreement) with Columbine Water and Sanitation District (Columbine) for costs incurred to maintain the District's outfall line to which Columbine connects. Per the agreement, Columbine

**VALLEY SANITATION DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018 AND 2017**

agrees to reimburse the District for their proportionate share of these costs, which is equal to 12.4%. During 2018 and 2017, the District charged Columbine \$116 and \$808, respectively, for work performed.

Bow Mar Water and Sanitation District

On May 2, 1967 the District entered into an agreement with Bow Mar Water and Sanitation District (Bow Mar) to accommodate the future transmission of sewage from 80 single family equivalent taps. Bow Mar agreed to pay the District \$200 at the time each individual tap was connected and an annual service charge of \$1.00 per month for each tap connected to Valley's sewer transmission lines. The tap limitation was subsequently increased by Valley from 80 taps to 95 taps by an amendment to the agreement dated August 4, 1970.

On October 19, 1984 the District entered into a Indemnification and Cost Allocation Agreement whereby Bow Mar agreed to pay a prorated share of repair and replacement costs based on the number of users on the segment of pipe being repaired or replaced. The agreement also updated language related to the service charge requiring Bow Mar to reimburse a proportionate share of normal operation, maintenance and administration costs for each tap connected to Valley's sewer system. During 2018 and 2017, the service charge reimbursed by Bow Mar was \$2.00 per month for each of the 92 taps connected to Valley's sewer system amounting to \$2,208.

NOTE 8 - TAX, SPENDING AND DEBT LIMITATIONS

Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer's Bill of Rights (TABOR), contains tax, spending, revenue and debt limitations that apply to the State of Colorado and all local governments.

Enterprises, defined as government-owned businesses authorized to issue revenue bonds and receiving less than 10% of annual revenue in grants from all state and local governments combined, are excluded from the provisions of TABOR.

The District's management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Some of the provisions, including the interpretation of how to calculate Fiscal Year Spending limits and qualification as an Enterprise may require judicial interpretation.

TABOR requires local governments to establish Emergency Reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). Local governments are not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases. The District restricted net position of \$5,350 and \$5,200 for Emergency Reserves as of December 31, 2018 and 2017, respectively.

On November 7, 2017, the voters of the District authorized the issuance of debt up to \$2,700,000 with a maximum repayment cost of \$4,400,000 (principal and interest) and increase

**VALLEY SANITATION DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018 AND 2017**

property taxes up the \$190,000 annually for the purpose of financing the costs of relocating and improving the District's interceptor sewer line. This debt has not been issued.

This information is an integral part of the accompanying financial statements.
