Independent Auditor's Report

Board of Directors
Valley Sanitation District
Arapahoe County and City and
County of Denver, Colorado

Opinions

We have audited the accompanying financial statements of Valley Sanitation District (District) as of and for the years ended December 31, 2021 and 2020 and the related notes to the financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of Valley Sanitation District, as of December 31, 2021 and 2020, and the changes in its financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibility of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages IV through VIII be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards

generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's financial statements as a whole. The supplemental information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements. The supplemental information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information as listed in the table of contents but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

**VALLEY SANITATION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEARS ENDED DECEMBER 31, 2021 AND 2020**

Our discussion and analysis of Valley Sanitation District's (District) financial performance provides an overview of the District's financial activities for the fiscal years ended December 31, 2021 and 2020. Please read it in conjunction with the District's basic financial statements which begin on page 1.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. Required statements for proprietary funds are: 1) Statement of Net Position, 2) Statement of Revenues, Expenses and Changes in Fund Net Position, and 3) Statement of Cash Flows. The Statement of Net Position and the Statement of Revenues, Expenses and Changes in Fund Net Position are prepared using the economic resource measurement focus and the accrual basis of accounting.

The *Statement of Net Position* presents information on all of the District's assets plus deferred outflows of resources and liabilities plus deferred inflows of resources, with the difference reported as net position. This statement provides useful information regarding the financial position of the District. Over time, increases and decreases in net position can serve as a useful indicator of whether the financial position of the District is improving or deteriorating. Nonfinancial factors should also be considered to assess the overall financial position of the District.

The *Statement of Revenues, Expenses and Changes in Fund Net Position* reports the changes that have occurred during the year to the District's net position. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Revenues and expenses are reported for some items that will only result in cash flows in the subsequent years.

The *Statement of Cash Flows*, as its name implies, is concerned solely with flows of cash and cash equivalents. Only transactions that affect the District's cash position are reflected in this statement. Transactions are segregated into four sections on the statement: 1) cash flows from operating activities, 2) cash flows from capital financing activities, 3) cash flows from noncapital financing activities, and 4) cash flows from investing activities.

FINANCIAL SUMMARY AND ANALYSIS

Net Position - 2021

As noted earlier, net position may serve as a useful indicator of the District's financial position. As noted in the table below, the District's assets exceed liabilities plus deferred inflows of resources in 2021 by \$1,636,393. This amount increased from 2020 to 2021 by \$75,424 or 4.8%. Current assets decreased by \$168,002 from 2020 to 2021 due primarily to the draw down of the remaining loan funds receivable with the finalization of the sewer outfall project in early 2021. Cash and cash equivalents increased by \$60,534 primarily due to the reimbursement of costs related to the sewer outfall project. Prepaid expenses increased by \$6,365 due to property insurance coverage obtained on the new lift station. The decrease in capital assets of \$50,856

**VALLEY SANITATION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEARS ENDED DECEMBER 31, 2021 AND 2020**

is due to depreciation expense of \$62,568 exceeding capital additions of \$11,712. The decrease in total liabilities of \$320,103 relates to the finalization of the sewer outfall project during 2021 and the 2021 principal payment on the outstanding CWRPDA loan.

Net Position - 2020

The District's assets exceed liabilities plus deferred inflows of resources in 2020 by \$1,560,969. This amount increased from 2019 to 2020 by \$560,174 or 56.0%. Current assets decreased by 61.8% or \$2,077,124 from 2019 to 2020 primarily due to the draw down of loan funds in the amount of \$2,098,944 for reimbursement of costs related to the sewer outfall interceptor line relocation project (sewer outfall project). This funding explains the increase in capital assets by \$2,516,578 or 392.4% from 2019 to 2020. Property taxes receivable increased by \$53,660 due increase in debt mill levy from .699 to 1.195 for debt payments related to the voter approved loan in the amount of \$2,700,000 to finance the sewer outfall project. The District has entered into intergovernmental agreements with Columbine Water and Sanitation (Columbine) and Bow Mar Water and Sanitation (Bow Mar) for the cost sharing of sewer outfall project improvements and a long-term receivable was recorded in 2020 (See Note 8). Current liabilities increased \$261,713 or 252.6% due to significant construction costs payable including final retainage of \$110,715 at December 31, 2020. The sewer outfall project is anticipated to be finalized in early 2021 with engineering and legal costs remaining.

Total net position		<u>\$ 1,636,393</u>	<u>\$ 1,560,969</u>	<u>\$ 1,000,795</u>

Changes in Net Position - 2021

The District's net position increased by \$75,424. Total revenues decreased by \$367,300 from 2020 to 2021. The capital contribution of \$62 in 2021 is the result of a reconciliation of the total cost share required by Bow Mar Water & Sanitation. In 2020, the District recorded \$423,270 of

**VALLEY SANITATION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEARS ENDED DECEMBER 31, 2021 AND 2020**

capital contributions for the cost sharing in the outfall sewer project by Columbine Water and Sanitation and Bow Mar Water and Sanitation. Property tax revenue increased by \$54,965 due to the increase in the debt mill levy from .699 to 1.195 to satisfy the debt payments in 2021 in accordance with the loan agreement with CWRPDA (See Note 5). Total expenses increased by \$117,450 or 54.6% from 2020 to 2021. This increase is due to the depreciation of the sewer main interceptor and lift station that were placed in service during 2021. Additionally, the District incurred utility costs as well as routine repair and maintenance costs associated with the operation of the new lift station.

Changes in Net Position - 2020

As noted in the table below, the District's net position increased by \$560,174. Total revenues increased by \$461,972 from 2019 to 2020. Capital contributions of \$423,270 represents the cost sharing in the sewer outfall project by Columbine and Bow Mar as referenced above. Property tax revenue increased by \$62,391 due to the increase in the debt mill levy from .122 to .699. Total expenses increased \$48,253 primarily due to the District satisfying the first annual debt payments during 2020.

**VALLEY SANITATION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEARS ENDED DECEMBER 31, 2021 AND 2020**

BUDGETARY HIGHLIGHTS

During 2021 the District's budget was not amended. Total revenue was budgeted at \$432,955 for 2021, and actual revenue was \$435,831, which resulted in a positive budget variance of \$2,876. The District received \$11,951, or \$7,026 more than the amount budgeted from Columbine Water and Sanitation in accordance with the Amended and Restated Maintenance Cost Allocation Agreement (see Note 8). Under the agreement Columbine shares in the cost of operation, maintenance, and administration of the sewer outfall and lift station. The actual operating and maintenance costs were higher than anticipated. Total actual expenditures were \$350,160 or \$65,126 under budget. Platte Canyon provides administrative and sewer maintenance services for the District (See Note 8). Actual maintenance and repairs were more than the budget amount by \$25,960. This variance along with the negative budget variance in lift station utilities of \$4,633 relates to the operation and maintenance of the lift station discussed above. In addition to budgeting for emergency reserve amounting to \$20,790, the District budgeted an additional 15% of total operating expenses equal to \$35,630 to cover unanticipated costs. As the construction for the sewer outfall project was anticipated to be finalized in 2020 no funds were budgeted for 2021. Engineering and legal costs in the amount of \$11,712 were incurred in early 2021 to conclude the project. Details of the 2021 budget to actual results can be found on page 14 of this report.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The District's investment in capital assets at December 31, 2021, 2020, and 2019 amounted to \$3,107,132, \$3,157,988, and \$641,410, (net of accumulated depreciation), respectively.

Analysis of changes in capital assets from 2020 to 2021 is as follows:

	<u>2021</u>	<u>2020</u>	<u>Percentage Change</u>
Construction in progress	\$ -	\$ 3,157,988	-100%
Wastewater system	3,107,132	-	100%
Total net capital assets	<u>\$ 3,107,132</u>	<u>\$ 3,157,988</u>	

The District completed the major sewer outfall project including a force main interceptor and new lift station during 2021 with a total cost of \$3,169,700. Depreciation expense in 2021 amounted to \$62,568.

**VALLEY SANITATION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEARS ENDED DECEMBER 31, 2021 AND 2020**

Analysis of changes in capital assets from 2019 to 2020 is as follows:

	<u>2020</u>	<u>2019</u>	<u>Percentage Change</u>
Construction in progress	\$ 3,157,988	\$ 641,410	392%
Total net capital assets	<u>\$ 3,157,988</u>	<u>\$ 641,410</u>	

All of the District's capital assets were fully depreciated at December 31, 2020 and 2019, with the exception of the construction in progress of the sewer outfall project that began in 2015. The sewer outfall project was finalized in early 2021. Additional information on the District's capital assets can be found in Note 4 of this report.

Debt

The District issued a loan on May 7, 2019 in the amount of \$2,700,000 with the Colorado Water Resource Power and Development Authority for the funding of the outfall sewer project. During 2021, principal and interest payments on the loans were made as required. Details of the long-term debt obligations are presented in Note 5.

ECONOMIC FACTORS NEXT YEAR'S BUDGET AND RATES

Total revenue in 2022 is projected to be \$465,430 which includes the following revenue sources: property tax revenue for operations of \$177,930, property tax revenue for debt service of \$111,506, specific ownership tax revenue of \$21,897, investment earnings of \$380, sewer service surcharge revenue of \$106,465, capital project cost sharing revenue of \$35,034, maintenance cost sharing of \$9,110, and other revenue of \$3,108. The service fee will be increased from 10 percent in 2021 to 15 percent in 2022 of each customers' City of Englewood sewer bill. Total expenditures for 2022 are budgeted at \$748,781 with \$276,840 for operations, \$121,361 for debt service, 286,430 for one capital sewer project, and \$64,150 for contingencies and emergency reserves. The debt service mill levy was reduced by .09 mills due to taxes collected in 2019, prior to finalizing the loan agreement, that will be applied to the loan payment in 2022. Total expenditures are expected to exceed revenue by \$283,351 which will be funded by the District's current funds available.

REQUESTS FOR INFORMATION

The financial report is designed to provide a general overview of Valley Sanitation District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Financial Administrator, Valley Sanitation District, 8739 W. Coal Mine Ave., Littleton, CO 80123.

DECEMBER 31, 2021 AND 2020**

NOTE 1 – DEFINITION OF REPORTING ENTITY

Valley Sanitation District (District), was created as a quasi-municipal corporation and political subdivision of the State of Colorado, is governed pursuant to provisions of the Colorado Special District Act. The District's service area is located in Arapahoe County and City and County of Denver, Colorado. The District was established to provide sewer service to property within its service area primarily through intergovernmental agreements. The District is governed by an elected Board of Directors.

The District follows the Governmental Accounting Standards Board (GASB) accounting pronouncements which provide guidance for determining which governmental activities, organizations and functions should be included within the financial reporting entity. GASB pronouncements set forth the financial accountability of a governmental organization's elected governing body as the basic criterion for including a possible component governmental organization in a primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization's governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens and fiscal dependency.

The District is not financially accountable for any other organization, nor is the District a component unit of any other primary governmental entity.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the District conform to generally accepted accounting principles as applicable to governmental units accounted for as a proprietary enterprise fund. The enterprise fund is used since the District's powers are related to those operated similar to a private utility system where net income and capital maintenance are appropriate determinations of accountability.

The District has elected to follow Governmental Accounting Standards Board pronouncements.

Operating Revenues and Expenses

The District distinguishes *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with an enterprise fund's principal ongoing operations. Operating revenues consist of charges to customers for service provided. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses or capital contributions.

Restricted Resources

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

**VALLEY SANITATION DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021 AND 2020**

Budgets

In accordance with the Local Government Budget Law of Colorado, the District's Board of Directors holds public hearings in the fall each year to approve the budget and appropriate the funds for the ensuing year. The appropriation is at the total fund expenditures level and lapses at year end. The District's Board of Directors can modify the budget by line item within the total appropriation without notification. The appropriation can only be modified upon completion of notification and publication requirements.

Property Taxes

Property taxes are levied by the District's Board of Directors. The levy is based on assessed valuations determined by the County Assessor generally as of January 1 of each year. The levy is normally set by December 15 by certification to the County Commissioners to put the tax lien on the individual properties as of January 1 of the following year. The County Treasurer collects the determined taxes during the ensuing calendar year. The taxes are payable by April 30 or if in equal installments, at the taxpayer's election, in February and June. Delinquent taxpayers are notified in August and generally sales of the tax liens on delinquent properties are held in November or December. The County Treasurer remits the taxes collected monthly to the District.

Property taxes, net of estimated uncollectible taxes, are considered deferred inflows of resources and are recorded initially as deferred revenue in the year they are levied and measurable. The deferred property tax revenues are recorded as revenue in the year they are available or collected.

Cash Equivalents

For purposes of the statement of cash flows, the District considers cash deposits and highly liquid investments (including restricted assets) with a maturity of three months or less when purchased, to be cash equivalents.

Prepaid Expenses

Certain payments to vendors for goods or services reflect costs which are applicable to future accounting periods are recorded as prepaid items in the financial statements.

Receivables

All receivables are recorded at their gross value and where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

Capital Assets

Capital assets are recorded at cost except for those assets which have been contributed which are stated at estimated fair value at the date of contribution. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives

**VALLEY SANITATION DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021 AND 2020**

of the related capital assets, as applicable. Depreciation expense has been computed using the straight-line method over the estimated economic useful lives:

Wastewater system	40 years
Equipment	5 years

Estimates

Management uses estimates and assumptions in preparing financial statements in accordance with generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could vary from the estimates that were assumed in preparing the financial statements.

System Development Fees and Contributed Lines

System development fees are recorded as capital contributions when received. Lines contributed to the District are recorded as capital contributions and additions to the systems at estimated fair market value when received.

Reclassifications

For comparability, certain 2020 amounts have been reclassified where appropriate to conform with the 2021 financial statement presentation.

NOTE 3 - CASH AND INVESTMENTS

Cash and investments as of December 31, 2021 and 2020 were comprised of the following:

	<u>2021</u>	<u>2020</u>
Deposits with financial institutions	\$ 3,764	\$ 4,216
Investments	<u>673,376</u>	<u>612,390</u>
	<u>\$ 677,140</u>	<u>\$ 616,606</u>

The cash and investments are classified in the accompanying financial statements as of December 31, 2021 and 2020 as follows:

	<u>2021</u>	<u>2020</u>
Cash and cash equivalents	<u>\$ 677,140</u>	<u>\$ 616,606</u>

Cash Deposits

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral

**VALLEY SANITATION DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021 AND 2020**

pool for all public funds. The pool for all the uninsured public deposits as a group is to be maintained by another institution or held in trust. The market value of the collateral must be at least equal to 102% of the aggregate uninsured deposits.

The State Commissioners for banks and financial services are required by Statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

As of December 31, 2021, the District had cash deposits, with a bank balance and a carrying balance of \$3,764. As of December 31, 2020, the District had cash deposits, with a bank balance of \$8,663 and a carrying balance of \$4,216.

Investments

The District has adopted a formal investment policy, specifying the principal investment objectives of the District and standards of prudence to be used for managing the District's assets. The policy stipulates that all investments shall conform to State law.

Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local governments may invest which include:

- . Obligations of the United States and certain U.S. government agency securities and the World Bank
- . General obligation and revenue bonds of U.S. local government entities
- . Bankers' acceptances of certain banks
- . Commercial paper
- . Certain reverse repurchase agreements
- . Certain securities lending agreements
- . Certain corporate bonds
- . Written repurchase agreements collateralized by certain authorized securities
- . Certain money market funds
- . Guaranteed investment contracts
- . Local government investment pools

The District has invested in a local government invest pool, the Colorado Local Government Liquid Asset Trust (COLOTRUST), which is rated AAAM by Standard & Poor's.

Interest Rate Risk

Colorado Revised Statutes limit investment maturities to three to five years or less unless formally approved by the Board of Directors. Such actions are generally associated with a debt service reserve or sinking fund requirement.

**VALLEY SANITATION DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021 AND 2020**

As of December 31, 2021 and 2020, the District had the following investments:

<u>Investment</u>	<u>Maturity</u>	<u>Investments at NAV</u>	
		<u>2021</u>	<u>2020</u>
COLOTRUST PLUS+	Weighted average under 60 days	<u>\$ 673,376</u>	<u>\$ 612,390</u>

COLOTRUST

At December 31, 2021 and 2020, the District has invested in the Colorado Local Government Liquid Asset Trust (the Trust), an investment vehicle established for local government entities in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces all State statutes governing the Trust. The Trust operates similarly to a money market fund. The Trust offers shares in three portfolios, COLOTRUST PRIME and COLOTRUST PLUS+ and COLOTRUST EDGE. The portfolios may invest in U.S. Treasury securities, repurchase agreements collateralized by U.S. Treasury securities, certain obligations of U.S. government agencies and instrumentalities, and repurchase agreements collateralized with certain U.S. government agencies or instrumentalities. COLOTRUST PLUS+ and COLOTRUST EDGE may also invest in the highest rated commercial paper. The District's funds are invested in the COLOTRUST PLUS+ portfolio.

Investment Valuation

The District's net investments are measured at asset value (NAV).

COLOTRUST PLUS+ determines the NAV of the shares of each portfolio as of the close of business of each day. The NAV per share of each portfolio is computed by dividing the total value of the securities and other assets of the portfolios, less any liabilities, by the total outstanding shares of the portfolios. Liabilities, which include all expenses and fees of COLOTRUST PLUS+, are accrued daily. The NAV is calculated at fair value using various inputs in determine value in accordance with FASB guidance. It is the goal of the Trust to maintain a NAV of \$1.00 per share, however changes in interest rates may affect the fair value of the securities held by COLOTRUST PLUS+ and there can be no assurance that the NAV will not vary from \$1.00 per share.

NOTE 5 – LONG-TERM OBLIGATIONS

The following is an analysis of changes in long-term obligations for the period ending December 31, 2021:

	Balance December 31, 2020	Additions	Deletions	Balance December 31, 2021	Current Portion
Direct borrowing:					
CWRPDA Loan	\$ 2,660,754	\$ -	\$ 68,487	\$ 2,592,267	\$ 69,863

The following is an analysis of changes in long-term obligations for the period ending December 31, 2020:

	Balance December 31, 2019	Additions	Deletions	Balance December 31, 2020	Current Portion
Direct borrowing:					
CWRPDA Loan	\$ 2,700,000	\$ -	\$ 39,246	\$ 2,660,754	\$ 68,487

A description of the long-term obligation as of December 31, 2021, is as follows:

Colorado Water Resources and Power Development Authority (CWRPDA):

\$2,700,000 Loan Agreement dated May 7, 2019, with interest of 2.0%, due semi-annually through 2049. Loan repayments may be prepaid, in whole or in part, upon prior written notice of not less than ninety (90) days to the Authority. This loan was entered into by the District for the purpose of financing most of the outfall sewer project.

Per the covenant and requirements of the Loan, the District is required to maintain a three-month operating and maintenance reserve. At December 31, 2021 and 2020, the District has a reserve of \$59,376 and \$57,188, respectively, and is in compliance with the covenants and requirements of the Loan.

The following is a summary of the annual long-term debt principal and interest requirements:

	Principal	Interest	Total
2022	\$ 69,863	\$ 51,498	\$ 121,361
2023	71,267	50,094	121,361
2024	72,700	48,661	121,361
2025	74,161	47,199	121,360
2026	75,652	45,709	121,361
2027-2031	401,689	205,115	606,804
2032-2036	443,712	163,092	606,804
2037-2041	490,135	116,670	606,805
2042-2046	541,415	65,390	606,805
2047-2049	351,673	12,409	364,082
	<u>\$ 2,592,267</u>	<u>\$ 805,837</u>	<u>\$ 3,398,104</u>

**VALLEY SANITATION DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021 AND 2020**

NOTE 6 - NET POSITION

The District has net position consisting of three components – net investment in capital assets, restricted and unrestricted.

Investment in capital assets, consists of capital assets, net of accumulated depreciation and if applicable, reduced by the outstanding balances of bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. At December 31, 2021 and 2020, the District had investment in capital assets of \$514,865 and \$716,159, respectively.

Restricted net position includes amounts that are restricted for use either externally imposed by creditors, grantors, contributors, or laws and regulations of other governments or imposed through constitutional provisions or enabling legislation. As of December 31, 2021, and 2020, the District's restricted net position was \$5,800 and \$5,700 respectively, as required by Article X, Section 20 of the Constitution of the State of Colorado (See Note 9). Additionally, the District had restricted net position of \$59,376 and \$57,188, as of December 31, 2021 and December 31, 2020 respectively, as required by loan covenants (see Note 5).

Also, as of December 31, 2021 and 2020 the District had accumulated \$6,176 and \$8,204, respectively of property taxes restricted for debt service in future periods.

NOTE 7- RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, thefts of, damage to, or destruction of assets; errors or omissions; injuries to employees, or acts of God.

The District is a member of the Colorado Special Districts Property and Liability Pool (Pool). The Pool is an organization created by intergovernmental agreement to provide property, liability, public officials' liability, boiler and machinery and workers compensation coverage to its members. Settled claims have not exceeded this coverage in any of the past three fiscal years.

The District pays annual premiums to the Pool for liability, property, public officials' liability coverage and workers compensation. In the event aggregated losses incurred by the Pool exceed amounts recoverable from reinsurance contracts and funds accumulated by the Pool, the Pool may require additional contributions from the Pool members. Any excess funds which the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula.

NOTE 8 – INTERGOVERNMENTAL AGREEMENTS

City of Englewood

The District has a service agreement with the City of Englewood (City) whereby the City provides sewage treatment service to the District's service area and charges the users directly. The District is to provide and maintain its own sewer lines and connection to the City's facilities.

**VALLEY SANITATION DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021 AND 2020**

Platte Canyon Water and Sanitation District

The District has an agreement with Platte Canyon Water and Sanitation District (Platte Canyon) whereby Platte Canyon will provide administrative and sewer maintenance services for the District. Payments to Platte Canyon for these services provided during 2021 and 2020 amounted to \$150,960 and \$223,324, respectively.

Columbine Water and Sanitation District

The District entered into a Maintenance Cost Allocation Agreement with Columbine Water and Sanitation District (Columbine) dated February 9, 1987, whereby Columbine agreed to pay a regular maintenance and service charge to compensate the District for use of the outfall sewer line. The proportionate share was agreed to be 12.4% of the District's costs of normal operation, maintenance and administration. During 2021 and 2020, Columbine reimbursed the District \$11,951 and \$4,139 respectively, in accordance with the agreement. On March 13, 2020, the District and Columbine entered into an Amended and Restated Maintenance Cost Allocation Agreement in order to formalize the cost allocation of operation, maintenance, and administration expenses and establish annual reporting requirements and accounting responsibilities. Pursuant to the amended and restated agreement, Columbine's maintenance share shall not be applied to fund any replacement or capital expense of the outfall sewer line or other portion of the District's sewer system and shall be determined based upon the Sewer Tap Ratio Table which will be recalculated annually by the District. The amended and restated agreement expires on December 31, 2020, and thereafter shall automatically renew each year on January 1 for a one-year term expiring on December 31 of each subsequent year and will continue to renew until termination by mutual agreement of the District and Columbine.

On March 13, 2020, the District entered into a Capital Construction Cost Allocation Intergovernmental Agreement with Columbine whereby Columbine agreed to reimburse the District for its share in the capital improvements related to the rehabilitation of the outfall sewer line. Per the agreement, Columbine's allocation of the cost of the Interceptor Rehabilitation Project is not to exceed a total of \$447,000 which includes principal and interest and not to exceed an annual payment of \$14,900. Payments are due annually by no later than October 15th. Before the agreement was entered into, Columbine honored the request from the District during 2019 to equitably share in the costs of the improvements by remitting \$14,900. The agreement will terminate on the earlier of December 31, 2048, or the date on which the District has been paid the maximum of \$447,000. During 2020, the District recorded a capital contribution of \$326,560 and a long-term receivable representing the principal amount owed by Columbine. As of December 31, 2021, the District has received a total of \$44,700 under this agreement consisting of \$25,220 of principal and \$19,480 of interest.

Bow Mar Water and Sanitation District

On May 2, 1967 the District entered into an agreement with Bow Mar Water and Sanitation District (Bow Mar) to accommodate the future transmission of sewage from 80 single family equivalent taps. Bow Mar agreed to pay the District \$200 at the time each individual tap was connected and an annual service charge of \$1.00 per month for each tap connected to Valley's sewer transmission lines. The tap limitation was subsequently increased by Valley from 80 taps to 95 taps by an amendment to the agreement dated August 4, 1970.

**VALLEY SANITATION DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021 AND 2020**

On October 19, 1984 the District entered into a Indemnification and Cost Allocation Agreement whereby Bow Mar agreed to pay a prorated share of repair and replacement costs based on the number of users on the segment of pipe being repaired or replaced. The agreement also updated language related to the service charge requiring Bow Mar to reimburse a proportionate share of normal operation, maintenance and administration costs for each tap connected to Valley's sewer system. During 2021 and 2020, the service charge reimbursed by Bow Mar was \$2.00 per month for each of the 92 taps connected to Valley's sewer system amounting to \$2,208.

With the conclusion of the sewer outfall project in 2021, Bow Mar's prorated share of the total cost of capital improvements amounted to \$96,772. The District agreed to allow Bow Mar to pay off the obligation over five years at an interest rate of 2.0%. As the project was substantially complete as of December 31, 2020, the District submitted an invoice to Bow Mar in the amount of \$19,342 based on the estimated total project cost and recorded a capital contribution and a corresponding long-term receivable in the amount of \$96,710. The difference of \$62 between the estimated cost share and actual cost share was recorded as a capital contribution in 2021. As of December 31 2021, the District has received a total of \$38,708 and the balance of \$58,064 will be paid off over the next three years at the agreed upon interest rate of 2.0%.

NOTE 9 - TAX, SPENDING AND DEBT LIMITATIONS

Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer's Bill of Rights (TABOR), contains tax, spending, revenue and debt limitations that apply to the State of Colorado and all local governments.

Enterprises, defined as government-owned businesses authorized to issue revenue bonds and receiving less than 10% of annual revenue in grants from all state and local governments combined, are excluded from the provisions of TABOR.

The District's management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Some of the provisions, including the interpretation of how to calculate Fiscal Year Spending limits and qualification as an Enterprise may require judicial interpretation.

TABOR requires local governments to establish Emergency Reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). Local governments are not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases. The District restricted net position as required for Emergency Reserves (see Note 6).

On November 7, 2017, the voters of the District authorized the issuance of debt up to \$2,700,000 with a maximum repayment cost of \$4,400,000 (principal and interest) and increase property taxes up the \$190,000 annually for the purpose of financing the costs of relocating and improving the District's interceptor sewer line.

This information is an integral part of the accompanying financial statements.
